

4M IS YOUR BEST RIDE CONTROL SOLUTION

This program offers the ideal balance of comfort and control—no matter the road or vehicle. Designed as a proven value alternative to OE parts, this program is your go-to solution for dependable ride control and customer satisfaction.

ENGINEERED FOR RELIABILITY. PRICED FOR VALUE. BUILT TO PERFORM.

COMPLETE STRUT ASSEMBLIES INCLUDE:

- **Strut:** Great seal, long-life, and consistent dampening over wide range of temperatures
- **Coil Spring:** Electrostatic coating for optimal corrosion resistance
- **Bearing Plate:** Endurance tested under extreme load to ensure optimal performance & long life
- **Boot Kit & Bumper:** Bumper molded from urethane rubber for long dependable life
- **Upper Spring Seat:** Absorbs harsh, damaging road impact and noise for quieter driving
- **Upper & Lower Isolators:** Ensures spring remains stable in all conditions
- **Reinforced Brackets:** Designed to handle the worst road conditions

BARE STRUT & SHOCK ABSORBERS INCLUDE:

- Seals, Mirror-Finished, Hard-Chrome OE Style Piston Rod, Premium Eneos Oil, and Reinforced Brackets

SHOCK ABSORBER COMPLETE ASSEMBLY KITS

TOP MOUNT & COIL SPRING ASSEMBLIES

Each shock is fully assembled with all-new components—including mount, boot kit & bumper, hardware, bearings, bushings, and coil springs. Safer to install and engineered to OE form, fit, and function, our kits are sold in pairs and clearly labeled for easy identification.
